TO: Interested Parties  
SUBJECT: Performance of Northwest Edison

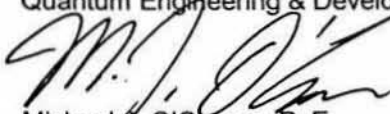

Quantum Engineering has hired Northwest Edison as a subcontractor on three lighting projects, totaling over \$250,000 in project value (lighting portion only). I have consistently found Northwest Edison to be an excellent subcontractor. They meet schedules, perform quality work, and they communicate well with the facility Owner in all circumstances.

I have personally developed and managed over \$12 Million in lighting retrofit projects in the last eight years. In the process I have worked with all of the major lighting retrofit contractors in Washington. I can say, without reservation, that Northwest Edison is the best contractor that I have ever hired to perform these projects. I would not hesitate to use them again in the future.

If you have any questions, please do not hesitate to call me at 206-523-5640.

Sincerely,

Quantum Engineering & Development, Inc.

Michael J. O'Connor, P. E.  
President
